

# Shelomith Chatmon

---

Senior Software Engineer | Front End Engineer with Backend Experience

Cleveland, OH | shelchatmon@gmail.com | (216) 205-1297

## Professional Summary

Senior Software Engineer with 10+ years' experience designing and delivering scalable front-end applications, intuitive UI/UX designs, and backend integrations. Expert in React, Angular, TypeScript, Node.js, and RESTful APIs, with proven success modernizing legacy applications, optimizing user experience, and leading development from design to deployment in CI/CD pipelines. Experienced instructor and mentor, with a track record of coaching teams in full-stack development and agile best practices.

## Core Skills

**Frontend:** React, Angular, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Sass, Bootstrap, Flexbox, Responsive Web Design

**Backend & Databases:** Node.js, PHP, MySQL, MongoDB, RESTful APIs

**DevOps & CI/CD:** Git, GitHub Actions, Azure DevOps, IIS, Docker/Kubernetes (basic)

**UX/UI & Tools:** Figma, Axure, Adobe Photoshop, Illustrator, Wireframing, Prototyping

**Methodologies:** Agile (Scrum), Test-driven Development, Code Reviews, Mentorship

## Professional Experience

### UX Developer / Software Engineer

AMT Insurance – Cleveland, OH | Sept 2016 – Present

- Modernized legacy applications into Angular, improving system performance and maintainability.
- Took ownership of full lifecycle development, from design through deployment in Azure CI/CD pipelines.
- Collaborated with backend engineers to integrate and optimize for seamless user experience.
- Improved Lighthouse score from D to A-, enhancing both load times and accessibility compliance.
- Championed front-end best practices, improving code quality and reducing defects.

## **Full Stack Front End Development Bootcamp Instructor (Evening Classes)**

UCC Coding Bootcamp – Cleveland, OH | Mar 2020 – Aug 2022

- Taught front-end and full-stack software development to adults transitioning into IT careers.
- Delivered curriculum on HTML5, CSS3, JavaScript, TypeScript, Next.js, RESTful APIs, MongoDB.
- Mentored students through capstone application development, providing UX/UI feedback and code reviews.
- Guided teams in Agile project delivery, ensuring on-time completion of development milestones.

## **UX Designer / UI Front-End Developer (Consultant)**

Stern Advertising – Cleveland, OH | Oct 2015 – Oct 2015

- Designed and developed a responsive interactive map for East Bank of the Flats using HTML5, JavaScript, and jQuery.
- Converted Photoshop mockups into production-ready UI/UX components.

## **UI Front-End Developer (Consultant)**

Medical Mutual of Ohio – Cleveland, OH | Dec 2014 – Feb 2015

- Built and launched healthcare enrollment applications within Sitecore CMS using HTML5, CSS3, and JavaScript.
- Collaborated with UX designers to translate mockups into responsive, accessible interfaces.

## **UI Front-End Developer (Consultant)**

Progressive Insurance – Mayfield, OH | Apr 2014 – Dec 2014

- Enhanced user experience by modernizing and maintaining web applications within a .NET/Agile environment.
- Developed responsive, cross-browser UIs with HTML5, CSS3, JavaScript, and C#.
- Implemented A/B testing, analytics, and UX improvements, directly supporting business goals.

## **Education & Certifications**

- Coursework: Some College – Equivalent to a Bachelor's in Computer Science through experience
- Microsoft Certified: AI Engineer Associate (In Progress, expected 2025)

## Selected Projects

- E-commerce Business Launch: Led front-end revamp with React and Node.js.
- Insurance Platform Modernization: Converted multiple legacy apps to Angular, cutting page load times by up to 40%.
- Bootcamp Capstone Oversight: Mentored teams on real-world projects, including a membership management platform and REST API integrations.
